## GREENBAR ORGANIC COLLECTIVE

Located in LA's Art District, Greenbar Distillery make spirits a little differently from most. They start by imagining a better version of familiar spirits - whiskey with new flavours that no one has ever tasted, gin so rich that it doesn't get lost in Negronis, liqueurs that add vibrant flavours to drinks without drowning them in sugar and amari that reflect the character of California's nature and culture. Choosing Greenbar Distillery spirits makes a positive impact on the environment. Delicious, organic ingredients—those without chemicals that harm the earth—thrive in a healthy eco-system. With this in mind, Greenbar Distillery uses light-weight glass, recycled materials, & plants a tree for every bottle you Buy. **Greenbar distillery has the largest portfolio of organic spirits.**

## BROOKLYN GIN

Brooklyn Gin is made in small batches, using hand-cracked juniper berries & fresh citrus peels to make a superb distilled gin with floral & citrus notes. Brooklyn contains eleven botanicals, five of which are fresh citrus peels. The grain base of Brooklyn Gin is 100% corn sourced from upstate New York. Brooklyn Gin is created in a beautiful copper pot still at New York's first licensed distillery since prohibition. It is there that the owners of Brooklyn Gin take their botanicals, locally purchased fruits, recipe and master distiller to produce an exquisite tasting gin.

## XICARU MEZCAL

Xicaru, the Zapotec word for beautiful, reflects Fernando Santibanez's desire to share a traditionally produced mezcal that is approachable and distinct. Using his grandmother's recipe, Fernando makes small batches of Xicaru Mezcal with time-honored methods at a Palenque in Matatlan, Oaxaca. These mezcals showcase the 100% Agave espadin from which it's made. Its natural smoke flavor is derived by cooking the agave in a conical stone oven on mesquite and ocote, woods native to Oaxaca.

## DELIRIO DE OAXACA MEZCAL

Mezcal Delirio De Oaxaca is meticulously handcrafted under the supervision of master distiller Fernano Santibanez. His goals is to bring this legendary spirit to consumers around the world. He uses specific criteria to select quality growers and distillers based on heritage, tradition, experience and terroir. Fernando personally oversees every step of the process to ensure the final product consistently meets his defined specifications. Delirio De Oaxaca reflects Fernando's passion for making spirits by hand and with care. Mezcal is one of the oldest spirits in Mexico and is referred to as "The Elixir of the Gods".

## TEQUILA DISTINGUIDO

From deep in the heart of Mexico comes tequila rich in tradition, respectful of the heritage and unsurpassed by others. Tequila Distinguido is an authentic, all-natural, estate-grown premium tequila, made from 8-10 year old 100% blue agave that is double distilled and hand-crafted to the highest standards for an incredibly smooth and refined taste. This third generation tequila-making family is rich with generations of old tradition, priding itself on the preparation of this tequila jewel, polished with work, customs and the DISTINCTION of its process.

## LIQUEUR DE DAMIANA

Damiana Liqueur is a light herbal-based liqueur from Mexico. It's made with the damiana herb that grows in Baja California, Mexico. It has great mixability in cocktails and tastes great as a shooter. The bottle is uniquely shaped and is modelled after an Incan Goddess. Damiana Liqueur is made by soaking dried damiana leaves in alcohol for five days. After this period, spices and botanicals such as vanilla, orange zest, honey, almond and chocolate are added.
